

Your help is needed!

A famous logician is lost in Liseberg. Decipher their identity from their lecture notes below and notify the Helpdesk for a reward. Preliminary investigation suggests that our misplaced logician enjoys crosswords and that each item describes a word whose length is the number in parentheses.

Logic Colloquium, Göteborg, June 2024

- 1. Academic, eating nothing, establishes theorem (5)*
- 2. White piste-mice hold knowledge (9)*
- 3. Minibar is home to retired automaton (5)*
- 4. Camila MB dares to hide binder (6)*
- 5. Most of police station's after Italian club as a result of Craig (13)*
- 6. Real number perhaps (7)*
- 7. Ten doe off in express (6)*
- 8. Reposed NP-hard problem (3)*
- 9. Key formula in CH (4)*
- 10. Substitution: necessary for higher mathematics? (11)*
- 11. Opponent plays game to the end (5)*
- 12. Subject to overdose in the Morley rank (5,6)*
